

Croda Platinum Sponsorship announced

Dr Tony Gough, IFSCC President Elect said “We are thrilled to welcome Croda as a Platinum Sponsor of the 32nd IFSCC Congress, a prestigious event that would not be possible without such generous sponsorship support. IFSCC 2022 will be a wonderful feast of high-quality podium and poster presentations on the latest cosmetic science.”

Laura Willemsen, Vice President - Marketing, Consumer Care at Croda added: “The IFSCC brings together industry partners to successfully bring science and technology into the cosmetics industry. It is Croda’s Purpose to bring Smart science to improve lives™, and every day our teams work often in collaboration with partners on novel innovation and science to meet the ever-evolving consumer needs. This year’s conference themes resonate with our science and innovation priorities, and we are excited to contribute and present the concepts from our Beauty Actives and Beauty Formulations R&T teams and engage with partners on novel scientific developments and opportunities. It is a pleasure to support the organisation in the London edition, close to our headquarters in Yorkshire, UK.”
